

WEB DEVELOPER & IT TECHNICIAN

Ahamed Aflal

PROFESSIONAL SUMMARY

As a recent Computer Software Engineering graduate, I come equipped with a solid grounding in HTML, CSS, and JavaScript. While my professional background may be limited, my commitment to rapid learning and flexibility, along with a strong work ethic, positions me as an eager candidate ready to enthusiastically embrace any web development challenge. Furthermore, my proficiency in computer and laptop hardware repairing, along with software installation skills, complements my software engineering knowledge, making me a well-rounded and valuable candidate for roles in web development and IT support. My objective is to leverage these skills and enthusiasm to contribute effectively to a dynamic and innovative software development team.

EXPERIENCE

IT Technician, Gate Way Solution, Srilanka

2021 - 2022

As an IT Technician at Gateway Computer Solutions, I provided expert technical support, diagnosed hardware and software issues, and executed timely repairs. I efficiently configured operating systems, resolved technical problems, and advised on hardware and software solutions. My role encompassed delivering top-notch service and ensuring client satisfaction.

IT Technician, Freelancer, Srilanka

2022 - 2023

As a freelance IT Technician, I offered comprehensive IT support to a diverse client base, including individuals and small businesses. My responsibilities included diagnosing and resolving hardware and software issues, performing hardware repairs, configuring operating systems, conducting remote troubleshooting, and advising clients on cost-effective hardware and software solutions. I also collaborated on data backup and disaster recovery plans, optimized network configurations, and provided guidance on data security best practices. My client-centric approach included managing service
